## Columns

Drift back in time to a bygone civilization, the ancient world of Phoenicia. And play a game that originated among the Phoenician merchants, Columns. It's incredibly captivating, yet very simple. You'll find yourself losing track of time. And you don't have to be a game whiz to play at the hardest level.

Columns of rainbow-colored items drop one after another. Arrange 3 or more shapes of the same color horizontally, vertically or diagonally to remove them from the play screen. If the columns pile up to the top, the game is over.

When you have the urge for a new challenge, try the Flash game. In this version, you can race the clock to make a flashing item disappear.

Start on the easiest level and work your way up. Or challenge a higher level right from the start. Play alone or double the fun by playing with a friend.

Columns is simple and captivating! It'll make you forget who, what and where you are!

## Versus Mode

In the Versus mode, you compete against another player on 2 separate play fields.

Your score is the number of matches you win. When you earn

a higher score than your opponent, you win the game.

The Versus mode has a unique feature which adds extra excitement to the game.

When you line up 3 items of the same color, you form 1 column.

Whenever you make 2 or more columns disappear, a horizontal block appears on the bottom of your opponent's play field. The number of blocks that appear on your opponent's field is determined by the number of columns that disappear from your field.

Horizontal Blocks

- To add 1 horizontal block to your opponent's play field, you must make 4 items or 2 Columns disappear.
- To add 2 horizontal blocks to your opponent's play field, you must make 5 items or 3 Columns disappear.

Whenever a horizontal block appears on your opponent's field, the column that is falling on that field disappears.

This falling Column disappears when another horizontal block appears.

In a situation where you already have horizontal blocks on your field, the number of horizontal blocks that appear on your opponent's field disappears from your field. For example, if you have 2 horizontal blocks on your on field and you make 1 horizontal block appear on your opponent's, 1 of your horizontal blocks disappears.

Your score is the number of matches you win. You win a match when you make a flashing item disappear before your opponent does. You also win when your opponent fails to keep the columns from piling up to the top of the field.

You become the Grand Champ by earning a higher score than your opponent in the Original mode or by winning 9 matches within the selected time limit in the Flash mode.

The Versus mode has a unique feature which adds extra excitement to the Flash game.
